

Design thinking

Half-day virtual session

Opening up new creative ideas and finding and implementing innovative solutions can give companies a competitive advantage.

This practical half-day virtual workshop introduces design thinking as a technique participants can use in their role. Participants will learn a structured methodology to understand problems and opportunities and generate ideas through iteration and prototyping.

Learning objectives

- Articulate the stages of the design thinking methodology
- Understand strategies for the Empathise, Define, Ideate, and Prototype phases
- Identify opportunities to apply design thinking in their role
- Build confidence in using design thinking to support their work

Session format

Sessions are usually run on Zoom or Teams. Please let us know if you prefer a different platform.

Groups of up to 12 recommended, up to 20 if necessary. Please let us know if you have a larger group and we can tweak the session accordingly.

All participants receive a PDF of the slides, key learning points and pointers to further learning resources.

Sample timetable

9:00	Welcome and introduction <ul style="list-style-type: none">• Reflection on challenges to innovation
9:15	Introduction to design thinking <ul style="list-style-type: none">• Overview• Value
9:30	Empathise phase <ul style="list-style-type: none">• Understanding the user
9:50	Define phase <ul style="list-style-type: none">• Framing problems effectively
10:10	Break
10:20	Ideate phase <ul style="list-style-type: none">• Generating creative ideas
10:40	Prototype phase <ul style="list-style-type: none">• Building quick models
11:00	Small group exercise <ul style="list-style-type: none">• Applying design thinking to a case study
11:20	Debrief and action planning
11:30	Close
