

Facilitator profile – Alistair Stevenson

Alistair is an executive facilitator and leadership consultant specialising in decision-making under pressure, strategy execution and leadership in complex environments. He has over eight years' experience delivering applied management programmes for UK government departments, multinational organisations and major Gulf institutions. A former Managing Director, he combines facilitation expertise with practical commercial experience of building businesses, negotiating international contracts and leading cross-border teams.

He works with senior leaders and management teams across the UK and GCC, including Saudi Arabia and the UAE. His approach is structured, practical and outcome-focused, helping participants turn strategy into action, make better decisions and address complex

organisational problems.

Key skills:

- Strategy development and execution
- Decision-making under pressure
- Problem solving and Design Thinking
- Agile Scrum and Design Sprint facilitation
- Public sector strategic planning
- AI and digital productivity
- Executive leadership and communication
- Change and transformation
- Negotiation and conflict resolution
- Lean Six Sigma problem solving
- Balanced Scorecard and risk management
